Milliken™ FOR HUMANKIND.

RED LIST FREE

Healthy materials are the foundation for effective circularity, reducing community pollution and cleaner living for all.

- The Living Building Challenge Red List contains the “worst in class” materials, chemicals and elements known to pose serious risks to human health and the greater ecosystem.
- Red List Free certification is the absence of Red List chemicals in building and home furnishings.
- Our products have been completely vetted and verified to contain no Red List Chemicals at levels at or above 100 ppm or 0.01 percent.
- Affords superior recycling potential of clean-based products.

Achieving LBC Red List Free is a commitment to significantly cut down on the output and use of harmful chemicals. It reflects our company’s prioritization on human health and ensuring a brighter future for generations to come.

M/PACT™ Carbon Neutral Product

Climate change is one of the greatest threats facing humanity. That’s why our modular flooring products are carbon neutral everywhere in the world. Let’s work together for a better tomorrow.

Sustainable features

Tracing Landscapes is manufactured with PVC-Free WellBAC® Comfort cushion backing, and is certified NSF-140 Gold. Made in the USA, **Tracing Landscapes** is also available with our NSF-140 Platinum backing option. All Milliken modular carpets carry Environmental Product Declarations and Health Product Declarations, which contribute to LEED certification. Additionally, Milliken modular carpets carry Declare® transparency labels and comply with the Red List Imperative of the Living Building Challenge.™
