QUICK SHIP | SHIPS WITHIN 3 DAYS

STAPLE

FOUNDATIONAL FLOORING

Staple is the dependable, confident groundwork for any interior. This solution dyed carpet tile collection is designed to offer a calm, neutral background that steps aside, allowing architectural elements to take the lead.

Simple and smart, Staple delivers effortless compatibility and specification confidence for **fast-turn projects**.

VERSATILE

Staple is created for the practical demands of today's commercial spaces and excels where neutrality and speed are paramount. It is an ideal flooring solution for a wide range of projects, including tenant improvements, office refreshes, retail, multifamily and general commercial upgrades. Built for high traffic and reconfigurable environments, Staple is a highly adaptable core component for any essential commercial application.

DESIGNED FOR PACE. DELIVERED ON TIME.

Engineered specifically for **fast-paced, cost-conscious projects**, Staple is in our **Quick Ship** program, shipping within 3 days of order.

INTRODUCING
WELLBAC® FUNCTION

Discover part of our WellBAC® solution for healthy interiors. WellBAC® Function delivers value-driven, utility-focused backing with PVC-free construction that supports material health and Indoor Air Quality. Function-backed carpet tiles provide foundational performance through a non-reactive system designed for simple end-of-life replacement.

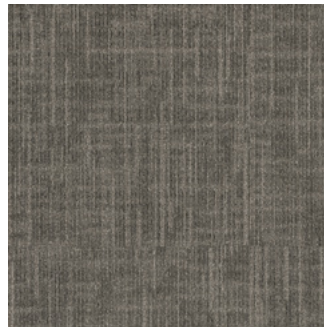

The PVC-free backing is chemically compatible with all adhesives, eliminating risks associated with plasticizer migration, adhesive break-down and chemical incompatibility. This low-emitting material promotes healthier indoor environments and allows for easy removal during replacement or renovation.

WELLBAC® FUNCTION

FOUNDATIONAL PERFORMANCE

- 1**

FACE FABRIC
Patterns and constructions are tufted with our state-of-the-art technology.
- 2**

PRIMARY BACKING
The face yarn is tufted through a high quality non-woven textile. The structure of the textile holds the yarn in place, acting as the primary backing.
- 3**

PRECOAT
The precoat layer locks tufted yarns into the primary backing to ensure excellent tuft bind.
- 4**

FIBERGLASS
A high quality fiberglass layer is embedded in the polyolefin compound to ensure dimensional stability of the tile.
- 5**

SECONDARY BACKING
A proprietary polyolefin compound layer formulated by Milliken scientists to create a durable and stable tile
- 6**

FELT BACK
A protective non-woven textile layer provides a non-reactive surface and enhances health and wellness.

Value-Driven Performance and Durability

WellBAC® Function backing provides excellent lamination strength, wear performance and dimensional stability.

Save Time and Money on Installation.

Our carpet tiles are easy to cut, handle and are non-reactive to adhesive residue when installed over old residue.

Designed with Material Health and Wellness in Mind.

All WellBAC® carpet tiles are Red List Free and PVC-Free.

CLIMATE IMPACT

Our climate is changing. Milliken takes a holistic approach to reducing our products' embodied carbon without compromising quality. We champion circularity through our N/XT Life™ reclamation program, and continue our carbon-reduction journey by offsetting the full cradle-to-gate carbon footprint through our M/PACT™ program.

MATERIAL HEALTH

Our innovative flooring solutions pave the way for healthier, happier, more productive spaces. All Milliken carpet is **PVC-Free** and free of harmful Red List materials. With **100%** material transparency, **low-VOCs**, and less new raw materials, we aim to eliminate harmful chemicals consistent with the highest voluntary standard.
