SNAP SHOT

A Moment in Time

The power of memory is deeply rooted in our senses, vivid flashes that resurface as collective experiences. Introducing the Snapshot collection, inspired by double exposure photography and the layering of moments. Photographic elements are overlaid with abstract imagery, a reflection of how memories combine to form a visual narrative. Featuring 3 patterns and 2 accompanying colorations, Snapshot pulls inspiration from memories and interprets them through unique, photorealistic designs.

A dynamic visual experience

The Snapshot collection pushes the boundaries of design. PrintWorks, our state-of-the-art print technology, allows us to produce intricate overlays that play with depth, dimension, and color transforming the carpet into a dynamic visual experience. By blending artistry and technology, we're redefining how flooring can captivate the senses.

Inspired by memories

Just as memories are unique to each person, the Snapshot collection can be individualized to meet the specific needs of your project. Milliken's PrintWorks technology allows for design modifications, such as adding elements or changing scale, to personalize the final look.

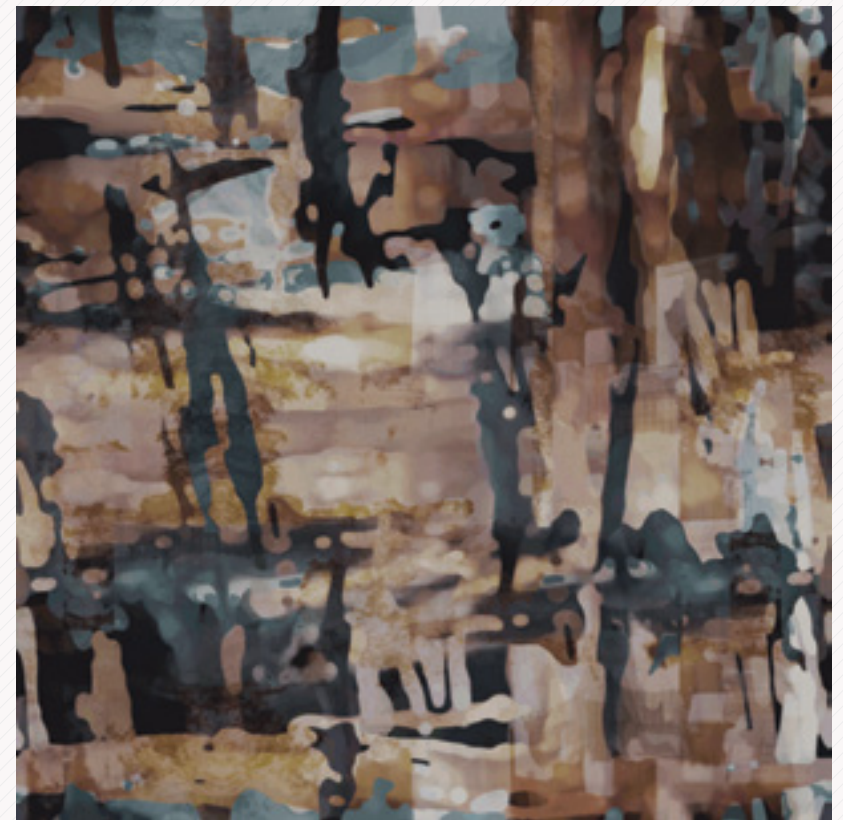

Details brought to life

Our in-register print technique ensures precise, photorealistic detail so that each pattern is brought to life in striking form. By ensuring patterns align perfectly, carpet tiles come together to create a seamless visual flow. This capability enhances the overall aesthetic, delivering a striking appearance across the entire surface.

Steeped in memory

Inspired by the nostalgia of memory recall, Snapshot's three impact designs in two colorations encourage the recollection of moments in time. Colorways range from soft neutrals to vibrant hues, reflecting the subtleties of a moment cemented in time. Each design invites a personal connection, allowing spaces to feel layered with history and meaning.
